

# CSE110 Review Questions (Solutions)

Prepared by Ryan Dougherty

## Method Overloading

**Question 1** What is method overloading? **Answer:** Overloading is when there are 2 or more methods with the same name in the same class, but with different signatures.

**Question 2** What are the valid method headings assuming they are written in the same class?

- a) `public void Void()`
- b) `public double void f2()`
- c) `public double sum(int left, right)`
- d) `public String string(int n)`
- e) `public BankAccount bankAccount()`

**Answers:** A, D, E
