## CSE110 Review Questions (Solutions)

Prepared by Ryan Dougherty

## 1 Method Overloading

**Question 1** What is method overloading? Answer: Overloading is when there are 2 or more methods with the same name in the same class, but with different signatures.

Question 2 What are the valid method headings assuming they are written in the same class?

```
a) public void Void()
b) public double void f2()
c) public double sum(int left, right)
d) public String string(int n)
e) public BankAccount bankAccount()

Answers: A, D, E
```
